C.E. JOHNSON PROPRIETOR

BOW ISLAND

Mr. Weatherup has left the C.P.R. Depot here and gone to relieve the Agent at Burdett.

Mr. McHae has returned to his work again, glad to say his father is somewhat better now.

Mr. J. Yell is here to relieve Mr. E. D. O'Neill at the C. P. R. Depot, who is sick.

Mr. and Mrs. R. L. Stone left last Saturday for Strathmore, where they will make their future home.

The Bow Island U.F.A. Dance and Card Party on Halloween was a great success, over \$100 being added to the funds. There was great Spook chasing, over 200 being present.

Mr. and Mrs. Carell have left for Scotland on the "Minnesota".

Mr. Simpson of Bow Island has left for Red Deer.

The Farmers Political Candidates are getting seats in every Legislature, be United and our Farmers will also get into Power. Watch them Win!

The Camp Fire Girls met at their headquarters on Tuesday October 28th when the first Council Fire was held. One new member, Miss Rhoda Brown was received, one hundred and sixty honors were awarded.

BARVEE

Mrs. C. D. Herrington went to Medicine Hat Saturday in response to a telephone message from the hospital, announcing the serious illness of her husband, who has a serious attack of typhoid fever.

G. C. Johnson is having an aerialist well drilled for him.

Geo. Laurence, N. Walker, Wm. Dalley and R. J. Emerson went to Medicine Hat Friday returning Saturday.

Mrs. R. J. Emerson who went to visit relatives and friends in the Prosper District some three weeks ago got on the sick list, but is better again and returned home Sunday.

Geo. Murray is doing a great streak of road work these days.

The coal mines are doing a rushing business these days as most of the Farmers have to dig their coal. O what a picnic!

Cheer up Miss D., he may come, it is pretty cold for a Ford Car to be out.

If your shoes need repairing take them to Olivers you may be the lucky tenth.

To Whom it may Concern

Under the Provisions of the Town Act and the Town By-Laws every male resident of Bow Island School District No. 1883 of the full age of twenty-one years who has resided in the said district for a period of one month or over and has not been assessed upon the last revised assessment roll of the Town must pay an annual Tax of \$1.00 for school purposes.

The tax is now due and should be paid to the undersigned forthwith as any person neglecting or refusing to pay the same is subject to a levy by distress and sale of his goods and chattels.

W. A. Bateman,
Secretary Treasurer
Town of Bow Island.

Even Xmas goods such as white ivory ware, will be on the One Cent Sale.

REST with NATURE

The closer you follow the rules of Nature the more you will accomplish, and the longer you will live, even nature takes her rest during the winter months-why not you? Spend this winter on the Pacific Coast, where you can enjoy summer pastimes (ride, Motor, Golf, in the big outdoors).

The Canadian Pacific operate three through trains daily to Vancouver including the fast all- sleeping "or train," "Trans-Canada Limited." See the magnificent mountains in their winter garb; the open sea and green fields all this and more await you at the Pacific Coast.

Call or write for full particulars to any Agent of the Canadian Pacific Railway.

Admit Germans to Labor Conference

Washington.—Germany and Austria are to be admitted to the international labor organization, "with the rights and obligations possessed by other members."

A recommendation to this effect from the organization committee was adopted by the labor conference with but one dissenting voice.

The debate was spirited and prolonged, but ultimately it came to an ignominious end under the closure rule. The vote for admission stood 71 to 1, the one vote being that of Louis Guerin, French employers' delegate. There was also one abstention. Jules Carlier, Belgian employers' delegate, did not vote either way.

The Belgian government delegates voted for admission, not, as they explained, because they wished to admit the Germans, but because of economic necessity.

The four Canadian delegates all voted for the motion to admit. On the previous motion to apply closure, however, they divided. Mr. Parsons, employers' delegate, and Mr. Draper, workers' delegate, voted against the motion.

The two Canadian government delegates, Mr. Rowell and Mr. Acland, who is substituting for Mr. Robertson, voted for it. The vote on the closure motion stood: For, 65; against, 10.

The attitude of the Canadian delegates toward the motion for admission was determined at a meeting of the delegation held prior to the debate in the conference.

The question was not far from the center of all standpoints. It was then determined to support the recommendation of the organizing committee on the motion to admit, from the economic point of view, it was essential that German industry should be brought within the scope of the restrictions laid down in the labor annex to the League of Nations covenant.

Future Depends on Navy

London.—Speaking at the Navy League, Walter Hume Long, First Lord of the Admiralty, said that "while the country had been told to look to new forms of protection, it must not forsake the substance for the shadow. The power of the world is inseparably associated with the policy the country is going to pursue with regard to her naval forces."

Werner Horn Found Guilty

Frederickton, N.B.—Werner Horn was found guilty on the charge that he dynamited the cable of the international bridge at St. Croix, N.B., on February 2, 1915. The jury was out only 13 minutes after the verdict was rendered. The defendant conducted his own defense, said he was a German officer and was acting under orders of the German government in war time.

Drury is Chosen Premier of Ontario

Toronto.—E. C. Drury is to be the next premier of Ontario, succeeding Sir William Hearst. Mr. Drury was the unanimous choice of the Farmers of Ontario and Labor representatives in the new legislature, at a joint conference at the U.E.O. headquarters. It is understood that the meeting was very harmonious and that there was an indication of the two groups pulling well together in the future, though both the U.F.O. and Labor will retain their group features to a considerable extent.

Premier-elect Drury said that the new government was practically completed, that all the portfolios had been allocated, and that the government would be ready on short notice to take over the reins from Sir William Hearst and his ministers.

The policy of the Union Farmers so far as it has been definitely agreed upon is outlined in an address given by Mr. Drury after his selection. In this he stated that one of the first acts of the new government would be to carry out the mandate of the people of the province on prohibition, as declared in the recent referendum vote, and Mr. Drury expressed himself as in complete sympathy with this mandate. He pointed out that the U.F.O. had waged war on special privileges and this policy would be continued, he said.

He intimated that the new gov-

Labor Maintenance

Sum Owning

Dominions Paying Interest Which Would Be to State's Advantage in Future

London.—In the house of commons Col. Winston Spencer Churchill, secretary of state for war, said the British dominions owed the war office £20,000,000 for the maintenance of troops in the field.

"We do not now anticipate receiving more than fifteen million pounds from Australia in the present year," said Mr. Churchill, "owing to financial difficulties there, but the remainder was a perfectly good debt on which the dominions were paying interest and which would roll forward for the state's advantage in future years."

Aliens Deported

Men Were Held in Internment Camp and Sailed From Canada on October 27

Winnipeg.—Ten of the aliens arrested in this city during the riots of June 1916 have been deported, according to the immigration authorities. The men had been held in the Kapuskasing internment camp, Ontario, and sailed from Canada on October 27. One man who had been arrested at the same time, a Russian, who had served four years overseas with the 5th Battalion, is still in the internment camp, according to information of officials of the Labor Defence League.

Melting of Coins

Order Making Illegal Breaking Up of Silver Coin Currency

London.—Austin Chamberlain, chancellor of the exchequer, announced in the house of commons today that an order has been issued making the melting or breaking up of silver coin currency. The export of British silver coins is prohibited and steps are being taken to prohibit the export of silver bullion except under special license. The situation, the chancellor added, is being carefully watched and he hoped further action would be unnecessary.

Britain's Final Aid to Denkin

London.—In defending the army expenditures, the Secretary for War, Mr. Churchill, announced that the cabinet had approved a final contribution of the surplus stores to General Denkin, the army's financial leader in South Russia. The value of the contribution, he added, was approximately \$15,000,000 sterling, and it would be dispatched during the winter.

Proportional Representation

Winnipeg.—A bill providing for proportional representation for Winnipeg will be introduced in the next session of the provincial legislature, according to the Premier.

"We are not at this time going to abandon the principle of justice and fair play which have actuated us in the past."

"If we are called to power we must stand for no class legislation of whatever kind. Our legislative program must be framed for the benefit of every just and honest and legitimate interest in the province. If in the carrying out of such a program the subject and different interests get in the way, so much the worse for the latter."

W. N. U. 1288

Alleged Evasion of Immigration Law

Claim that Hutlerites Get Into Canada By Automobiles

Winnipeg.—Finding it a difficult job getting into Manitoba from the United States by train, Hutlerites, it is alleged, are trying to outwit the immigration authorities by getting into automobiles. Reports to this effect were submitted at a meeting of the central branch of the Great War Veterans' association, with a result that a resolution was unanimously passed calling the attention of the federal government to the matter and urging it to take immediate steps to see that the regulations prohibiting the entry of Hutlerites into Manitoba were not evaded in what was described as this astute way.

The Sugar Shortage

Licenses to Export Sugar Cancelled By Canadian Trade Commission

Ottawa.—No export licenses of sugar from Canada are being issued, and old contracts which called for the shipment of sugar to the United States have been cancelled. The Canadian trade commission, it was learned, export of sugar along the border points, which has been permitted to some extent in the past, has also been stopped, despite the many hundreds of requests for sugar being received by the commission.

At the office of the commission it was stated that if care is exercised by the consumers, there is sufficient sugar in Canada for domestic use, providing there are no strikes or transportation tie-ups.

Canada is the best situated country in the world in this respect, it was stated.

To Solve Fiume Question

France and Britain Are Again Trying to Bring About Settlement of Problem

Paris.—Efforts of France and England are again being brought into play to bring about a solution of the Italian-American difficulties over the settlement of the Fiume problem, according to the Liberte.

The newspaper reports that the American opposition to the modified Italian proposals is unchanged and that the response of Secretary of State Lansing is in the negative.

Premier Clemenceau received Foreign Minister Titttoni.

Heavy Potato Loss in Manitoba

Winnipeg.—A Manitoba has sustained a loss of about 2,000,000 bushels of potatoes, frozen in the ground, at market prices today, \$1.25 per bushel, means a loss of \$3,000,000, and represents a loss of from 30 to 40 per cent. of the entire crop. Dealers say there will be a serious shortage in the province this winter.

War on Illiteracy

An Americanization bill to wipe out illiteracy in the United States was reported on favorably by the senate labor committee. The bill would appropriate \$12,500,000 a year.

Melons Grown in the West

George Merrick, head of the Merrick-Anderson company, who for years before the war and ever since has been a most earnest advocate of greater production, is very proud of the fine muskmelons which he grew this year at Old England, near Selkirk. He believes that in years to come the market gardeners for the city of Winnipeg will be doing it in the light, warm, sandy soil in the region near the town of Selkirk, where conditions are very favorable. The picture shows samples of the melon crop of this season, said to be equal to those of Montreal.

Turkish Question For New Conference

Entente Representatives Are Persuaded U.S. Will Not Voluntarily Accept Mandate

Paris.—The entente representatives in the peace conference, apparently are persuaded that the United States will not voluntarily accept any mandate in the Near East, and it now seems assured that the Turkish question will not be touched by the present peace conference, but will probably be taken up by another conference to be held within a few months. There is much speculation as to when the conference for the division of Turkey is to be held. It will probably not be in Paris. The suggestion of Geneva has not met with great favor, as it is not regarded as a good place for a winter conference, and it is believed that Turkey must be disposed of before spring.

To Relieve Distress

Preparations Being Made in U.S. to Cope With Strike Situation

Washington.—The government, concerned with the refusal of the miners' organization to call off the strike of a half million soft coal workers, has moved actively to protect the people from great distress.

First of many steps to deal with a situation admittedly critical probably will be these:

"Ample police or other protection for miners willing to remain on the job as urged by President Wilson."

"Revival of the fuel administration, armed with full war-time powers to prevent hoarding and profiteering."

"Allocation and distribution of coal to homes, railroads and industries."

"Efforts to bring the strike to a speedy end through mediation."

"The government, however, will make no effort to bring about indictment of officers of the United Mine Workers of America, who called off the strike, on charges of conspiracy to reduce production of a necessary product."

Sugar Rations to Candy-Makers

Washington.—Rationing of sugar to manufacturers of candy, soft drinks and the like is soon to be suggested by the sugar equalization board, a house war investigating committee was told by Herbert Hoover, former federal food administrator. This step by the board, Mr. Hoover said, resulted from the fact that "raw sugar has risen beyond the point where it can be bought advantageously for the housewife."

Germany May Not Hand Over Ships

Berlin.—The Deutsche Allgemeine Zeitung says semi-officially that the terms of the German government to the new from the supreme council at Paris, demanding the surrender of German ships sold to Holland during the war, will probably be in the negative. The note will declare that the government is unable to endorse the legal arguments of the entente that the sale of these ships, which are now in German waters, was invalid.

To Withdraw British Troops

London.—Andrew Bonar Law, government leader in the House of Commons, announced that the government was arranging with France and Prince Feisal, son of the King of the Hejaz, for the immediate withdrawal of the British troops from Syria and the assumption of the duties of occupation by the French and Arabs, pending the conclusion of the peace treaty.

Britain is Defied By Sinn Feiners

Motion Pictures of German Crimes

Films Have Been Taken From Tripit Showing Actual Shelling of Sinking Vessels

New York.—Motion picture films taken from archives of Admiral Von Tirpitz showing actual shelling of ships and showing allied vessels being torpedoed by German U-boats during the whole war, were brought to the attention of a Knight of Columbus yesterday.

The films, which were destined for exhibition by Germany on the day of its triumph, were made by cameramen on a submarine which was commissioned to cruise about the Irish Sea and photograph merchant ships.

After they had been attacked by U-boats, the films showed more than 40,000 feet of film. The pictures depict the U-boats shelling four British vessels while those on the ships were swimming for lifeboats and safety. A torpedo leaving the tube of the submarine, speeding towards its victims, is also shown.

Stranded in England

British Government Has Been Requested to Provide for Canadians Now in Old Country

London.—The Canadian government will probably receive representations, urging the opening of a camp here for a very limited period for soldiers who took their discharge here, and now find themselves workless.

It will also be understood that although these men have now absolutely no legal claim for repatriation, it will be wiser to grant this concession. If this is done, however, it is urged that some organization in Canada must be prepared to look after them on their arrival, otherwise their condition in Canada will be as bad as it is here.

Navy Must Retain Strength

Beatty Says Nation Would Fall to the Ground Unless Sea Force Maintained

London.—Earl Beatty, the new first sea lord, speaking here, declared that while public economy was essential, any reduction in communication was as important as before the war, and the navy was our insurance for maintenance here. The League of Nations was a pious hope for relieving us of some of that insurance, which he hoped might be fulfilled, but the navy made us into a strong nation armed, and without it the Empire would fall to the ground.

Explosion on Japanese Battleship

Tokio.—The manoeuvres of the entire Japanese navy, in which the Empress of Japan, were interrupted by an explosion on the battleship Hyuga in Tokyo Bay. Fourteen men were killed and thirty injured.

Canada Wants Place on Governing Body

Washington.—Canada has filed a formal protest against the proposed composition of the governing body of the international labor office to be established under the League of Nations. The point at issue is regarded by the Canadian delegation here as of the greatest moment. It involves the right of Canada, by reason of her industrial importance, to name one of the members of the governing body rather than to take her chance of election as one of the nations of lesser importance, from the industrial point of view.

The international labor office (which will be controlled by the governing body), forms part of the permanent organization created to further application of the labor principles embodied in the peace treaty.

Its governing body is to consist of 24 members. Twelve will represent the government, six will be nominated by the employers' delegates to the international labor conference, six by the workers' delegates to the conference. Of the twelve government representatives, eight will be nominated by the members of the conference which is to meet in Geneva. The remaining four will be nominated by the other government delegates to the conference. The governing body will consist of 24 members, which eight nations are of industrial importance, and therefore empowered each to name a representative on the governing body. The point at issue is regarded by the Canadian delegation here as of the greatest moment. It involves the right of Canada, by reason of her industrial importance, to name one of the members of the governing body rather than to take her chance of election as one of the nations of lesser importance, from the industrial point of view.

Britain is Defied By Sinn Feiners

Dublin.—The meeting of the Sinn Féin parliament held here was in direct defiance of the government's proclamation, and the people are interested to know what the government will do about it. The meeting being illegal, the Irish papers are forbidden to mention it.

A report circulated by the Sinn Féin says that a national inspector of fisheries will be appointed; that a civil service scheme is being arranged to embrace all local officers, and also that national arbitration courts and labor conciliation bodies will be formed.

Estimates for the coming financial period, says the report, were laid before the house, and the necessary votes of credit adopted.

The six Sinn Féin members for Dublin have sent to the United States consul a copy of the alleged instructions for sending the Sinn Féin representatives to the conference. The letter says: "As these instructions constitute a hindrance to lawful and honest trade, the government has elected the representatives of the city of Dublin request that you transmit copies of them to your government."

No Relief in Sight

Winnipeg Wholesaler Says Exportation of Sugar is Cause of

Winnipeg.—Writing to the Free Press, A. MacDonald, wholesale grocer, claims that the shortage of white sugar in this country is due to the granting permits too freely to exporters, while wholesale dealers in Canada can only get a few hundred sacks of sugar at a time.

"According to the British Columbia Sugar Refining Company's report, Fiji and Peru are coming to help Canada. One boat with 700 tons and another with 2,000 tons are on their way, or in all, less than one-third of the quantity that left one of our eastern factories' wharves within ten or ten days for European markets."

Co-Operation Asked in Scholarships

Winnipeg.—Co-operation of the provincial government in the plan to establish scholarships in Paris for graduates of Canadian colleges was asked by Hon. P. Roy, Canadian commissioner general in Paris, at a conference here with Hon. Dr. R. H. Norris, Minister of Education, and Premier Norris. Dr. Roy is confident that the government will establish the three scholarships asked, which will be worth \$12,000 tenable for a number of years in Paris.

New Haven, Conn.—Mrs. Ella Wheeler Wilcox, author and poetess, died at her home, "The Bungalow," in Branford, recently. Mrs. Wilcox, who was 70 years of age, had been ill for several months, having had a nervous collapse while engaging in war relief work in England.

United States, Great Britain, France, Italy, Belgium, Japan, Switzerland and Spain.

If German delegates are admitted to the conference, Germany, by reason of her industrial importance, will be entitled to a seat on the governing body, and Spain being at the end of the list, will cease to be numbered among the eight.

Now the position taken by Canada is that she should rank as one of the eight nations of "chief industrial importance." And to that end has deposited a protest. The Dominion government holds that she is entitled to be regarded on the grounds:

(1) Of population.

(2) Of relative industrial importance.

When the council of the League of Nations convenes, and this is expected shortly, Canada's protest will be one of the first questions for discussion.

Education in New World Era

The world upheaval occasioned by the Great War is having its effects not only upon politics and political institutions, finance, trade and commerce, and economics in general, but also upon all social and moral relations. While the great struggle was in progress, and the need for bringing every ounce of power and every form of resource to bear to achieve victory became more and more evident, people began to say that the old world never again will be the same. This, in fact, became a trite saying, and many who made use of it hardly realized just how true it was and how great a change the revolution taking place in the world, and which was affecting every phase of individual, community, national and international life.

Remarkable and far-reaching as have been the changes brought about in political life and institutions—here in Canada we are only now beginning to realize just how great the change has been, and just beginning to get a glimpse of other and perhaps greater changes which seem impending in finance, trade and commerce, in science and industry, the greatest change of all has taken place in the sphere of social conditions.

The insistent demands of labor for a new place in the world, the almost world-wide sweep of the movement against the perpetration of legalized liquor traffic; the insistence upon greater attention being paid to the health and physical well-being of the people, more especially of the boys and girls—the need for which was so startlingly exposed by the examinations conducted by the army doctors in connection with the recruiting of the immense armies which modern war called for these things are even more significant of the new era upon which the world has entered than those which have to do with what in the past we have been taught to regard as the more material things.

And in the laying of the foundation for, and in the development of, this new social order, the most thoughtful men and women have come to recognize that no one institution will be called upon to play a larger or more important part than the public schools and higher institutions of learning throughout this and all other lands. In every progressive country today, education is receiving the serious attention of the most public-spirited and far-seeing statesmen and leaders in public life.

In Great Britain it has found expression in the most sweeping educational reforms of the last half century or more, and the appropriation of positively staggering sums of money, even at a time when the Old Land is faced with a tremendous national debt and taxation has reached heights hitherto undreamed of.

In Canada a general awakening in regard to matters educational is in evidence in almost every Province, and is most noticeable of all, in the Provinces of the West and in old Quebec. The change which is taking place in the latter Province is, perhaps, most significant of all, and has in it all the elements that may yet lead to a closer union between Quebec and the other Provinces and

help to eliminate those causes of contention which in the past have so greatly retarded our national life. One of the most promising movements so far as Canada is concerned was the convening of the recent National Conference on Character Education in Relation to Canadian Citizenship, which was held at Winnipeg October 20-22, and which was attended by representative men and women in all walks of life from every Province of the Dominion, and at which inspiring and instructive addresses were delivered, not only by prominent Canadians, but by leaders of thought from the United States and Great Britain.

So important does the writer of this column consider this great National Conference to have been at this stage in Canada's history, that he proposes to devote some space to its deliberations in future articles.

Very Accommodating
"How did you get on?"
The sweet maiden breathed the words into her lover's manly ear as she met him in the passage. He had to know the result.
"Oh, your father is heartless!" said the young man indignantly. "I told him I could not live without you, and—"
"Yes, Yes!"—impetuously. "What did he merely offer to pay my funeral expenses?"
"He merely offered to pay my funeral expenses!"

A little garter judiciously administered often makes a weak man strong.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach. We find bowels of children love its delicious fruit taste. Full directions for children's use on each bottle. Give it without fear. Mother! You must say "California's."

New things to eat are being discovered daily—seemingly for the purpose of adding to the high cost of living.

Drives Asthma Before it.
The smoke vapor from Dr. J. C. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relief-giving remedy shows how actual and powerful it is. It is the result of long study and experiment, and was not submitted to the public until its makers knew it would do its work well.

Walked 55 Miles in One Day
One of the most remarkable pedestrians ever known is probably Edward Payson Weston, who walked in one day from Philadelphia to New York, a distance of ninety-five miles.

He left the City Hall in Philadelphia at five minutes after midnight, and reached the City Hall in New York at 11:35 p.m. A year later he walked over the same route he had walked forty years before, beating his own previous time by many hours, and was 120 years old in 24 days and 20 hours. Of all the records an athlete has to face, the most difficult to overcome is his past self.

Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of changing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and healthy.

50 cents a box, all dealers, or Edmunds, Bates & Co., Ltd., Toronto.

Dr. Chase's Ointment

For Soldier Settlers

School Lands in Manitoba and Saskatchewan Withheld From Sale

Through the intervention of the Soldier Settlement board, school lands in Manitoba and Saskatchewan aggregating 432,000 acres, have been withheld from sale by auction in order to be made available for settlement by returned soldiers. Arrangements have been completed to advertise these lands, 2,700 quarter sections in all, for sale by public auction this fall. The lands are situated in the Winnipeg, Brandon, Ashern and St. Rose du Lac districts in Manitoba, and the Canora, Walden, Prince Albert and Wakaw districts in Saskatchewan. They were selected because of the fact that in these districts crops this year were good and increased settlement is particularly desirable. The provincial governments concerned in the sale.

No child should be allowed to suffer for an hour from worms when pain relief can be got "in a simple but strong remedy." Mother Graves' Worm Exterminator.

At Swedish weddings, among the middle and lower classes, the bridegroom carries a whip. This is an emblem of his authority in the domestic circle.

Our idea of a hopeless liar is a person who says he never makes mistakes.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Nalgan River, Que., writes—"I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the Tablets always do, just what is claimed for them. They are mild, but thorough laxative which regulate the bowels and sweeten the stomach, thus banishing indigestion, constipation, colic, colds, etc. They are sold by medicine dealers, by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Russia, certain peasant costumes are trimmed with the skins of the turbot, and in Egypt men wear sandals made from the skins of fish caught in the Red Sea.

Minard's Liniment Cures Dietsmen.

British Strike Very Costly
The approximate cost of the recent railway strike to the British treasury was £10,000,000 sterling, according to an announcement made by the Chancellor of the Exchequer in the House of Commons. The Chancellor added that the publicity campaign against the strike cost the government more than £32,000 sterling.

It is but natural that a man should get hot when others "roast" him.

U.S. May Purchase British Airship

Two and a Half Million Dollars Appropriated By Congress For Purchase

An early closing of the contract for the purchase by the navy department of the British rigid airship R38, the largest airship in the world, now under construction in England, is expected. It was started at Washington.

Two and a half million dollars were appropriated by congress for the purchase of this airship.

"The success," said the statement "of the British in building and operating rigid airships is proved by the trip of the R34 to the United States and its return to England. While the Germans had many years' start of the British, the latter have made wonderful progress in the last few years.

The R38 to outward appearance will look like the R34, but her dimensions, horse-power, speed and radius of action will be much greater. When full of gas, she will have a 22,000 cubic foot capacity, which is fifteen times that of the C5, the United States naval dirigible blown to the ground on the eve of an attempt to cross the Atlantic.

The R38 is 604 feet in length, 88 feet in diameter, 92 feet in height, and carries a useful load of 45 tons. She is expected to have a maximum speed of sixty knots.

"The British air ministry has offered to train personnel for the R38, that upon delivery the airship can be taken over immediately by the United States crew and down to the U.S.

A woman who attempts to cook according to her husband's idea is apt to make a mess of it.

SATISFYING RELIEF FROM LUMBAGO

Sloan's Liniment has the punch that relieves rheumatic twinges

This warming, penetrating, stimulating remedy penetrates without rubbing right to the aching spot and brings quick relief, surely, cleanly. A woman's help for external pains—sprains, strains, stiffness, headaches, lumbago, bruises.

Get your bottle today—costs little, means much. Ask your druggist for it by name. Keep it handy for the whole family. The big bottle is 50c, 70c, \$1.40. Made in Canada.

Growing on the Manitoba Agricultural College grounds are a number of selected native seedling plum trees. These trees were in full bearing this year, and their crop has demonstrated very clearly that plums of good size and quality can be grown in Manitoba. From 50 to 100 pounds of fruit have been taken from each tree.

Cornas cannot exist when Holloway's Corn Cure is applied to them, and it goes to the root and kills the growth.

En Route From Siberia

Seven Hundred British Soldiers Due to Reach Vancouver Nov. 11.

Seven hundred British soldiers now on the sea coastbound from Vladivostok to the C.P.O.S. St. Montague will arrive in Vancouver on Armistice day, Nov. 11, and will be entertained during their brief stay by the Great War Veterans, the Imperial Veterans and the Ladies' Auxiliary of the Army and Navy.

These troops include men from some of the famous fighting regiments. They are all volunteers and have served for four and a half years. There are First Warwicks, Manchester, Gordon Highlanders and Durham in the party. They will be in Montreal en route to England about Nov. 17.

To Utilize Tidal Power

In view of the shortage of British coal for export purposes it is reported that French scientists and industrialists are endeavoring to supply power by harnessing the tides. For several years French scientific men have declared that this was no fantastic dream, and already considerable data on the subject have been collected. In order to apply these theories to the test of practice, a small scientific company has been formed to carry out experiments at Ploos-anach, on the Cotes du Nord.

What other men have done you may do. Carlyle says: "He can who thinks he can." Emerson says, "Nobody can cheat you out of ultimate success but yourself."

Dominions Take New Status

Manchester Guardian Talks of Revolution in Westminster Constitution of Empire

The Manchester Guardian in discussing the revolution which has taken place in the unwritten constitution of the British Empire, calls attention to the fact that the dominions are individual nations under the peace treaty and have separate votes in the League of Nations' council. This, it says, is better realized in America than in Great Britain, as is shown in one of the proposed league reservations in the American senate that on any issue in which the British Empire, or any dominion is involved, the British Empire suffrage be restricted to one vote.

The Guardian thinks this proposal will not readily find acceptance in the dominions and says Sir Robert Borden's recent insistence on the right of the Canadian parliament to initiate the ratification of the peace treaty is symptomatic of the increasing determination of the dominions to assert individuality. If the league is not to meet with embarrassments it is essential that the new status of the dominions be fully considered and regularized, the Guardian concludes.

The price paid for a cradle is hush money.

Minard's Liniment Co., Limited. Gentlemen,—I have used MINARD'S LINIMENT for years and in my family for years, and for my life I consider it has no equal. I would not start on a voyage without it if it cost a dollar.

Schr. CAPT. F. R. DESJARDIN, "Stocks," St. Andre, Kamouraska.

Cooperative Exchange Plan

With the view to enabling those with farm produce to dispose of it to best advantage, the Saskatchewan Provincial Department of Agriculture has established a cooperative exchange, the idea being that cooperative associations in the province where there is a surplus of potatoes and the produce should ship to districts where there is a scarcity. Through lack of information farmers will produce to sell frequently export it from the province in ignorance of the fact that better prices could be obtained from other Saskatchewan districts. The exchange plans to bring the buyers and sellers together and act as a clearing house.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on tablets physically identifies the only genuine Aspirin—the Aspirin produced by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which also sell larger "Bayer" packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monach, Germany, and is the only name of the Bayer Tablets of Aspirin. The Bayer Manufacturers will be pleased to send their general Trade Mark, the "Bayer Cross."
